He later served as the main opponent for the second half of the first season until he redeemed himself in the third season. He is spoken by Jeremy Jordan, who plays Winn Schott in Supergirl. Appearance At fourteen years old, Varian is a slim teenager with light skin, shaggy black hair with brown and blue highlights, freckles, two front buck teeth and light blue eyes. He is wearing a blue-grey shirt with a sewn-on bluewood patch, brown trousers, a dark chestnut apron, black gloves, dark brown shoes and brown and gold glasses. When Rapunzel and Cassandra first met him, he wore a black-and-grey coat and a grey Bauta, which makes his eyes glow in yellow-green color and makes his voice sound intimidating. During a snowstorm in Queen For a Day, he wore a brown coat with a two-and-a-half-length coat with a white fur-lined hoodie, a black belt and a red scarf. In Rapunzel's Return, he wore a bad-boy outfit consisting of a black coat with red outlines, a red bandanna with a sharp teeth design, a grey vest, brown belt and straps that could carry his chemical balls, red gloves with metal bands, brown trousers, grey-black boots. In The Lost Treasure of Heart The Sun and Beyond, he performs a Steampunk outfit consisting of a beige shirt, dark brown gloves with brown straps, maroon vest, brown trousers, dark brown utility belt, brown apron and dark chestnut and khaki boots. Personality Varian is an intelligent boy who is a scientist, inventor and alchemist. He does not believe in magic and tends to solve problems with scientific means. Seine Seine have been mistaken for magic, which makes others believe that he is a kind of wizard. He has good intentions and wanted to make his father proud of him for his creations. He has heard of the princess's hair with his father and the villagers, and also shows respect for the royal family when he bows to Rapunzel and calls her Your Highness until he was told to call her Rapunzel. Despite his intellect, he is quite naive and sometimes overlooks his plans and inventions. While he has a gift of invention and alchemy, his creations usually fire backwards and cause more mayhem than good. In addition to invention and alchemy, he likes to read about the adventures of Flynn Rider. He became his biggest fan for his bravery and fighting skills, but the excitement of his hero made him confuse Eugene Fitzherbert as a Flynn Rider when Eugene used the name in his life of crime. He quickly trusts Eugene with his secret hot water machines and tries to assure him that it is under control when Eugene expresses his concerns about how unstable the machines really are. When the machines began to collapse, he tried to turn them down, but was almost injured. After his house and village fell to the ground and the machines were destroyed, he shows regret for his actions and for letting his father down. The events of Queen for a Day, however, left Varian injured after his father was wrapped in a crystal, which he accidentally seeks out of the black rocks and his heart full of anger and revenge, after he felt betrayed by Rapunzel, who turned his back on him during his plight; also the urge to save his father. Varian's dark turn left him with a much more selfish person, focused on proving that he was capable of saving his father, even at the expense of others. Despite Rapunzel's attempts to make amends with Varian by helping him get the sundrop flower, Varian rapunzel reveals as soon as he gets what he wants from her. Even as Rapunzel tried to heal Varian's heart with her apology and promised to help him save his father, the barriers Varian put around him so that he would not be hurt again in the same way prevented him from listening to reason. Varian also proves capable of being ruthless when it comes to achieving his goals, manipulating people and attacking them when needed. After the theft of the sun drop failed, Varian sets about forcing Rapunzel to help him free his father by attacking the kingdom just to fail. Even after learning that not even Rapunzel's hair could help him free his father, he remains determined to make his father proud of him, no matter what it takes. In his wrath, Varian has shown his insulting side by turning his raccoon Ruddiger into a monster against his will. After about a year, however, Varian showed enormous guilt and shame for his past deeds and thought that he could never be forgiven, which is why he teamed up with the separatists of Saporìa to erase everyone's memories so that he could have done so. Can. New beginning and be friends again with Rapunzel. However, due to Rapunzel's compassion and the separatists' change of plan, Varian turned a new page and helped the princess and her friends save Corona. His rekindled friendship with Rapunzel soon returned him to his father and the forgiveness of Corona. Cassandra's red rocks have shown that Varian's greatest fear is that his father is trapped in amber again, and the people of Corona declare him a traitor and tell him that he deserves not to be able to release Quirin for his past crimes. It is also revealed that Varian is still to blame for everything he has done and still believes that the citizens of Corona will hate him more than ever. Even compared to Rapunzel, he keeps himself to be ordinary. With Rapunzel's help, however, Varian manages to fight his fear and save the kingdom from the red rocks, as he is hailed as a hero by Rapunzel and the citizens of Corona. Even after she is kidnapped by Cassandra, Varian expresses sympathy for what she has been through and tries to get through to her. which Queen Arianna ironically tried with him after he captured her. He even refers to her and admits that the path of hatred feels good at first, but will slowly lead to the person losing his mind and conscience after apparently going through the same thing. Apart from that, Varian's bravery manifests itself again, refusing to tell Cassandra the third incantation, although he does not know what she will do to him if he does not abide by it. It is also revealed that he has an extremely good memory and is able to memorize the Demanitus scroll completely. In addition, Varian is hinted at as a bit mischievous and eugene is tempted to think that he will touch part of the hot air balloon he built in Race to the Spire. As he matures, Varian handles his inventions more responsibly, tells others not to touch them, and scolds Lance for ignoring his warnings and causing the explosion of his Rooster invention. In Once a Handmaiden... He seems to have given up hope that Cassandra might give up her vindictive desires, and even launched a project alongside Eugene, in which she is destroyed by wrapping her in amber when she attacks again. But at Rapunzel's urging, he agrees to exercise restraint and tries to reach her again later. Varian also seems a bit adept at shooting and riding. In Plus Est En Vous, Varian does everything he can to banish Zhan Tiri back to Limbo, including rebuilding the machine with which Demanitus did this, and even takes a lead if Rapunzel and Eugene don't Are. He also expresses denial and anger at Eugene's concerns that his father, like Adira and Hector, was controlled by Cassandra but is still willing to take precautions just in case Corona's welfare comes first. Having taken possession of the sun drop and the moonstone, Zhan Tiri, along with the rest of Corona, once again shows his bravery and is appointed royal engineer after the destruction of Zhan Tiri, showing that the royal family has confidence and trust in him, even though he has conspired against them. It is also shown that he has come closer to his father, as Quirin helps him with his machines, and when one of them explodes, the two simply laugh out. Role in the series Season One In his debut appearance in What the Hair?! Get Cassandra Varian's help in solving the riddle surrounding Rapunzel's hair. At first, he was considered a magician with magical abilities. But Rapunzel and Cassandra learned that Varian is actually an alchemist who does not believe in magic, but a man of science. At the same time, he reveals that he is a big fan of Flynnigan Rider, confuses Eugene with him, and likes to tell Eugene that he has been working on a machine that will give his village hot running water. However, he does not realize that his creations are unstable and cause many earthquakes under his village, which causes all his work to blow up and at the same time disappoint his father Quirin. He returns to Great Expotations, where he comes to the exhibition of sciences with his latest invention. He had just considered Cassandra his girlfriend, as he calls her Cassie, and is willing to help her with her duties as lady-in-waiting, in exchange for her to help him find an assistant. He also seems to have a damper on the way he asks Rapunzel and Eugene if Cassandra will be present at the event when he introduces his new invention. He uses alchemy to help Cassandra clean up the castle and get the event up and running. Unfortunately, he left a wet ground on which Pete and Stan slipped, forcing the Captain of the Guard to replace Cassandra as a guard and personal escort to the Judge of the Mass, Dr. St. Croix. Varian was again forced to replace Cassandra with Shorty, but the racket almost led to St. Croix's nose being stabbed. Moreover, St. Croix only cared when Varian had a reliable assistant who gave flair to his invention, and let him go for first place in favor of Fernanda Pizazzo. This depressed Varian, who was then comforted by Cassandra. Unfortunately, St. Croix manipulated his invention, swirling it in senter, which, in combination with Pizazzo's invention, created a powerful vortex. Cassandra decided to protect Varian from St. Croix, which the former liked. With the help of Rapunzel's Mega Dry, which was driven backwards, Varian was able to reach and switch off the device. When St. Croix was taken on a stretcher, Cassandra Varian awarded the first prize band. In gratitude He Rapunzel and Cassandra the black, prickly rocks that had grown near Old Corona and show a reaction when Rapunzel stands next to them. Rapunzel asks Varian to help them unravel the mystery of the rocks and keep it secret, which he agrees with. Varian plays an important role in the for one day. When black rocks begin to grow and destroy everything, Varian wants to find a way to stop them from destroying everything else, but Quirin tells him to stay away from them. Varian then went with his father to see King Frederic and tell him about the situation. Annoyed when his father instead lies to the king over the rocks, Varian Rapunzel tells the truth. He

then decides to take matters into his own hands and works to find a way to remove the rocks with alchemy. When Quirin finds out what Varian did, Varian exhorts him to try to escape their problems. But then Quirin pushes Varian away from being trapped in a growing crystal made by one of Varian's attempts to use a chemical on the rocks. Varian runs to Rapunzel to get her help, but with her people in the crisis of the impending snowstorm she couldn't help him and let him go out from Pete and Stan. Varian returns home and finds his father frozen in massive amber holding a note. In tears, he swears to find a way to save him, and, through Rapunzel's inability to help him, makes everyone who has turned his back on him pay. He returns to The Alchemist Returns, where he appears to forgive Rapunzel and persuades her to help him steal the sunflower. Rapunzel agrees to help him only because he said it was for Corona. He later confessed that he used Rapunzel to get to the flower, and he did so only to save his father, not the kingdom. This was part of his revenge on all who turned their backs on him. Rapunzel asked him to help her and promised to free his father. For a moment, Varian regretted his actions and considered trusting the princess before hearing that the door had been opened, which led him to change his mind and announced that he no longer trusted Rapunzel because he believed she could promise. Then he escapes in a purple cloud of fog. Rapunzel is heartbreaking now that she realizes she was used by Varian, whom she deeply trusted. Later, in his alchemist lab, Varian tries to free his father from the rocks with the flower, but it does not work, much to his anger and frustration. When he remembers his conversations about the black rocks and the flower, he recognizes the heartbreaking truth: the flower was no longer the sun drop, Rapunzel was. Varian again plays a big role in Secret of the Sun Drop and launches an attack on the castle with a hidden vending machine under Rapunzel's birthday gifts. Rapunzel, Cassandra and Eugene quickly find out how to disable the vending machine, but the surprise attack leaves King Frederic around Rapunzels and orders that it must be under maximum security. On the same night, Varian launches another attack on the kingdom, this time with a huge and aggressive Ruddiger under the influence of a serum. The guards successfully protect Rapunzel (who had broken out of the castle) from damage, and Rapunzel in his hand helps the guards finally catch Ruddiger, who after his exploration in Rapunzel's hair. Unfortunately, the attack turned out to be a distraction, allowing Varian to easily enter the castle and kidnap Queen Arianna, but not before half of the guards (including the captain) were wounded after the attack, and the kingdom was terrified by the black rocks that grew across the kingdom. After the kingdom recognizes what has happened, a large-scale counterattack on the Old Corona is organized, which is now surrounded by black rocks. Rapunzel and King Frederic decide to sneak into Varian's house, separated from the Kingdom Army, to sneak out the Queen. Unfortunately, he had planned ahead and captured Rapunzel and the king as he fired an army of automatons at the kingdom's troops. Varian reveals his conspiracy to kidnap the Queen as a simple bait to lure Rapunzel to him. Varian threatens to envelop Queen Arianna in the same amber in which his father was trapped if Rapunzel did not use her hair to free his father. Much to his heart's sorrow, Rapunzel's hair does not work against the amber, and the powers of the kingdom defeat the automatons, the plan failed. Varian is devastated that he can no longer save his father, and so he vents his anger at Rapunzel by controlling a giant robot that still wants to take revenge on Rapunzel. He grabs Cassandra in the robot's metal hands and sadistically mocks her for his earlier crushing. When Queen Arianna orders him to stop, he also grabs her and begins to crush them both. In a moment of revelation, Rapunzel realizes how her solar-drop energy can control the black rocks. Varian furiously storms towards Rapunzel, only to have his robot destroyed by Rapunzel through the black rocks, much to his anger. Varian is arrested by the castle guard. Varian, when he and Ruddiger are sent to prison, he swears that he will still make his father proud. But under Rapunzel's urge, the king assures that Varian will get the help he needs. Season Two He made a cameo appearance in Happiness Is... as hallucination created by the idol of detention ists and threatened to use Frederic for experiments. He was also mentioned by Adira as the son of Quirin in Rapunzel and the Great Tree. Season three Sometime after Rapunzel and her friends left Corona to follow the Black Rocks, Varian allied with Andrew and the separatists of Saporria, who used the Oblivium's Saporian wand on King Frederic and Queen Arianna to erase their memories and make them believe he was their trusted adviser. He revealed to them his plan to use the same wand to create a synthetic gas, will erase the memories of all in Corona, and called it Quirineon in honor of his father. It is later revealed that Varian pretended to still want revenge, and that the real reason he created the gas was that everyone could forget their mistakes and regain their trust. But when he learned that the separatists were planning to destroy Corona with his Quirineon, Varian joined in to stop them. After saving Corona, he and Rapunzel managed to free Quirin with a reverse incantation. When he asked about the note, his father told him that he only said that he was proud of him and that he had always been. Varian and Quirin later joined Rapunzel and the others at a ceremony. Since then, he has done everything he can to make up for his past deeds, including rebuilding the throne room and trying to help King Frederic and Queen Arianna restore their memories. He was also commissioned to translate the text of Demanitus' newly assembled scroll, burning both ends of the candle. In Be Very Afraid, however, it is revealed that he had not yet survived the guilt of his past actions and was afraid to repeat his mistakes. When Corona was plagued by fear-induced red rocks, he and Rapunzel went underground to envelop the spring in amber. Varian, however, was still afraid that he would make a mistake that would cost him the confidence of Corona. But Rapunzel assures him that he could face his fears and save Corona. With Rapunzel's encouragement and empathy, he managed to fight his fear, using his connection to envelop the rocks in amber, and gaining the kingdom's admiration. In Cassandra's revenge, he celebrates Eugene's birthday. However, it is shortened when Cassandra crashes it demands the role for the sun and moon drop summoning. Varian had almost completed the translation of the entire scroll and memorized the incantations. When Cassandra found out, she kidnapped him and used the truth serum to get him to tell her the incantation that gives her full control of the Black Rocks. Varian tries to tell her not to make the same mistakes as singing Nothing Left to Lose, but she refused to listen and imprisoned him as her prisoner. While he was in the cage, he had a dream in which the enchanted girl told him to use the sun to see the sun. When he woke up, he tried to find the answers from the scroll, but he gave up until his glasses from the sunlight reflected the scroll, which revealed that it has hidden words. He wrote down the translation in time before the scroll was finally destroyed. Then he gave the new incantation to Rapunzel, who used it to defeat Cassandra. Faced with the threat that Cassandra Corona is creating, Varian takes matters into her own hands to protect the kingdom from her. In Race to the Spire, he supplies Rapunzel and Eugene (who received a warning from Calloope) a hot air balloon that gives them access to the tip before Cassandra does it herself. In Flynnposter, Varian builds another invention that will warn when threats like Cassandra appear. Unfortunately, the machine is manipulated by Lance, Kiera and Catalina, to Varian's frustration. In Once a Handmaiden... He and Eugene start Project Obsidian, in which Cassandra is locked up in the same amber where his father was trapped when she harms them, although Rapunzel insists on using it only as a last resort and still believes in Cassandra. Believes. not disappeared. Later, Varian tries to fight Cassandra when she brutally attacks Corona with her black rocks, and evacuates the village as soon as she takes over the kingdom. In Plus Est En Vous, Varian plans to rebuild Demanitus' machine to banish Zhan Tiri back to the lost realm. However, it is destroyed during the chaos. Later, he and the rest of Corona fight Zhan Tiri head-on, but their efforts do little to stop her. After Cassandra's redemption and Zhan Tiri's destruction, Varian is healed by Rapunzel because he was previously weakened by Zhan Tiri's use of Decay Incantation. Once peace is restored in Corona, he becomes the Royal Engineer and is finally able to give Corona hot water. Powers and abilities Varian has no special or magical abilities, so he is a normal, everyday human teenager. Alchemy and Engineering: His knowledge of alchemy and engineering enables him to bring his creations and ideas such as machines, gadgets and chemical mixtures to life. Even if his inventions don't always work and sometimes lead to people being almost killed, he's still trying to overcome and become the alchemist he can be. Varian was also able to use his alchemy to modify the mood potion into a truth serum and replicate it, while his technique allowed him to build an army of reverse-engineered copies of the automaton he encountered in the underground tunnel system. Trivia According to the first book in the series Tales of Rapunzel, Secrets Unlocked, Varian is canonically fourteen years old. The name Varian is French for variable, which means something that is not consistent or to change. He is skilful in drawing. It has been shown that he faints at the sight of blood. That could mean he mophobia. Varian's hair (especially his bangs) is drawn in such a way that he hardly covers his face, regardless of head and camera angles. This was inspired by a similar technique used to animate Mickey Mouse's ears. Varian is a letter from Varion, a Brave Saga 2 character. During his character arc, Varian goes through the five stages of mourning. He refuses to give up, frees his father from the amber and desperately seeks Rapunzel's help (denial), he swears revenge on Rapunzel and finally descends into a bout of rage, he performs amoral actions in the hope of saving his father (negotiations), he breaks down in tears and believes Quirin will be ashamed of him for what he did (depression), and he redeems himself and earns his father back by helping Rapunzel save Corona (acceptance). It a widespread misconception that Varian does not believe in magic, as he has only explained that he does not work with it. See also Varian in the Villains Wiki.
